

Fall 2010

To Montana Educators:

The information in this guide is intended to help incorporate water education into your classroom curriculum. Activities in the following Project WET Guides are now correlated to Montana Content Standards. The activities can provide exciting alternatives or enhancements to existing curriculum lessons. Many activities encourage learning in outdoor settings with real world applications.

This directory contains Content Standard correlations for activities in the following Guides:

- Project WET Curriculum and Activity Guide**
- Conserve Water Educator’s Guide**
- Discover A Watershed – Watershed Manager’s Educator Guide**
- Discover A Watershed: Missouri**
- WOW! Wonders of Wetlands**

The activities in each Guide are correlated to the most recent Content Standards in the areas of:

- Information Literacy / Library Media**
- Communication Arts**
- Math**
- Science**
- Social Studies**
- Technology**

The correlations are divided into grade levels of K-4, 5-8 and 9-12 to match the benchmarks of Montana OPI Content Standards.

Using the example below from the **Conserve Water Educator’s Guide**, one can see that **Pass the Jug** is found on page 123. At grades 5-8 this activity correlates to the Science and Technology Standards. The **bolded standards** indicate the content areas of primary emphasis. Although most of the Guides do not refer directly to the Technology Standards, correlations to these Standards have been made with the understanding that, in today’s classrooms, the use of various technologies is common practice. In each content area, the first number refers to the Standard number; the second number refers to the Benchmark for that Standard. Example: Science Benchmark 1.3 indicates the first Science Content Standard and the third Benchmark for the first Standard.
(See detailed Content Standards at the OPI website: <http://opi.mt.gov/>.)

Activity Title	Page	Grades	2010 Info Lit/ Library Media	2009 Communication Arts	2010 Math	2009 Science	Social Studies (revise 2011)	2008 Technology
<i>Pass the Jug</i>	123	5-8				1.1, 1.2, 1.3, 1.5, 2.1, 2.2, 5.4		1.2, 2.1, 2.3

We hope that this resource will prove helpful when planning ways to incorporate water education into your curriculum. Please contact us at 406-994-6671 or mtwatercourse@montana.edu with questions, suggestions, or to request resource help.
